

Pet house rules

Many holiday villages do not allow pets in their accommodations due to damage and noise control.

We would like to give you the opportunity to bring your pet but we have some strict rules that will need to be followed to make this possible.

Please take care:

- Never leave your pet alone in the house
- Do not let your pet go into any other room than the living room. Please leave the bathroom and bedrooms pet free.
- Bedding (Duvets and pillows) with pet hair will be billed. Guests that may stay in the house after you might be allergic and therefore we would have to remove them from the house.
- Cover the sofas and chairs with a blanket.
Please remove any hairs that may be on the furniture.
- Please take care with the walls. A wet dog for example can easily dirty the walls.
We will be needing to paint the walls afterwards and costs will be charged.
- Bring your own vacuum cleaner. Pet hairs always give a smell to the vacuum cleaner which isn't nice for the next guests that are allergic or don't own a pet.
- Your dog has to be leashed when walking on the park. Walk your dog only outside the park. Bring plastic bags for your dog's faeces.
- We are allowed to go inside your house without notice when we see a dog alone barking noisily.
