| American school bus | 110 per hour | 36 |

Both the school bus and the covered wagon are wheelchair accessible
*** Use the bouncy castle only under adult supervision.

## Beverages during the activity

Would you like something to drink during the activity? Reserve a can of soda for everyone at €3 per drink! Depending on the programme, we will stop at our refrigerator at a convenient time so that everyone can choose their own drink. If you are leaving the premises or are far away from the refrigerator, we will provide you with a backpack containing an assortment of canned drinks in advance. Would you like more than one drink? That is also possible!

# Activities and workshops 2026

## Thematic activities

### Expedition Jones

Imagine an activity with the adventurous factor of Indiana Jones and the sports and games activities of Expedition Robinson. That is Expedition Jones. We take you back in time to the year 1460. The time of the great explorers. You will compete against each other in different teams. Each team will complete six challenges, and for each challenge successfully completed, you will earn amulets that can be used during the final game. The challenges consist of: making fire, a low ropes course, catapult shooting, answering riddles, compass shooting, crossing the barrel bridge, and the final game.

### Murder Mystery

A crime has been committed and the police CSI team is short-staffed. You guessed it... your help is desperately needed! During the game, you can gather clues and information by correctly completing various assignments. With these clues, you will hopefully be able to unmask the perpetrator. The various tasks consist of: a composition drawing, unravelling the riddles, crossing a (fictional) swamp to obtain clues, a search for clues, reading Braille and a walkie-talkie game! Through cooperation and effective communication between the participants, you will hopefully solve this murder!

### Flintstone Challenge

Travel back in time with our activity: the Flintstone Challenge! Compete against each other to see which team can best bring out their inner caveman. During three activities, you can collect ambers that you can use to build the most beautiful, fastest and strongest Flintstone car possible for the final race. You will then race against the other teams in this car! With the help of the costumes available, will Barney finally beat Fred? And can Wilma beat Betty? The three different games are: axe throwing, moving and chopping a tree trunk, making fire and boiling water with it, and a final game.

# Activities and workshops 2026

## Mini Video Games

Video games have been popular worldwide for years. The most famous name in this world is undoubtedly Super Mario. This plumber has been around for about 30 years and has a lot of popular games to his name. One of these games is Mario Party; a cheerful video game with lots of mini games in which players can really let their competitive spirit run wild. We have translated these games into an activity on our estate! No computers or arcade cabinets, but real outdoor activities that focus on teamwork. You go through various "levels" to collect as many coins and stars as possible. The Mini Video Games are six accessible games, including a Drift Trike race. Ultimately, all teams come together for a grand finale, in which the princess must be rescued. Which team will ultimately collect the most stars?

## Highland games

In this "Battle of the Clans", teams compete against each other as they did in the Scottish Highlands! A real team activity with a serious showdown. Each clan comes up with a unique and fitting Highland name and is loaned a matching quilt. The components of this activity are: log dragging, pole slalom, pitchfork darts, tug-of-war, tree trunk sawing, nail hammering and pole throwing. The programme is suitable for both men and women who enjoy a physical challenge. Which clan is the strongest and rules the highlands of the Biestheuvel?

## Vault robbery

Have you always wondered what it would be like to secretly rob a vault? Now is your chance! At Landgoed de Biestheuvel, there are a number of vaults containing valuable items. Your group will be divided into different gangs of thieves and will compete against each other. By solving puzzles in the various writings, the safes can be cracked, but be careful...! The police may arrive at any moment, and you do not want to end up in prison.
The vault robbery is organised in our hospitality area. We will also be walking around serving drinks during the activity. Various snacks are also available in consultation. Ask about the various options!

# Activities and workshops 2026

### Escape house

At the beginning of the last century, Cornelis' father, the gamekeeper of Landgoed de Biestheuvel, disappeared. He left Cor behind with an enigmatic mystery that remained unsolved even after his death in 1993. Cornelis's house still stands on the estate. The mystery of his father's disappearance has still not been solved. Will you and your team be able to find out what happened? You have exactly one hour!

## Activities with guidance

### Communication Challenge

Are you looking for a challenging team-building assignment with colleagues, friends or family? Then take on the Communication Challenge! Various boxes are hidden in the maze that can only be opened with a key. Outside the maze, there are various tubes containing riddles that lead to a key. Run through the 1-hectare maze and find the boxes based on clues from the team outside the maze. Both the team inside and the team outside the maze must work together to find the right tubes, keys and boxes. Fun fact: the teams can only move as a group and can only communicate via walkie-talkie! Will you and your family, friends or colleagues manage to open the last box?

### Bubble ball

Go wild with this activity: bubble ball! Put on the giant ball and jump, run or bump into each other. Various games are played in teams, in which you can bump your opponents over. During the activity, different games can be played. Think of games such as football, tag, and last man standing. Not only is it great fun to do, but it is also fun to watch.

# Activities and workshops 2026

## Rope course survival

Discover what you are capable of with our Rope Course survival challenge! This activity is physically demanding but also requires teamwork within the group to conquer the various rope courses.
The components are: the Low Ropes Course and the Barrel Bridge over the water.

## Crate stacking

Crate stacking: a real team activity at height. Both the climber and the other participants are very important. Who has the best balance and the courage to climb as high as possible on a stack of crates that could fall over at any moment? And who can throw the crates up properly? If you are looking for an activity at height that almost everyone can participate in, then crate stacking is the activity of choice.

## Wall climbing

Conquer the climbing walls of our climbing towers! Try to climb as high as possible (max. 10 metres) while secured to a climbing rope and discover that it is not just about strength. Who will make it to the top? You can climb with an automatic belay device or with the instructor themselves. This activity is also ideal for team building.

## Archery tag

Archery tag is best described as a combination of dodgeball and paintball. However, instead of playing with a ball or paintball gun, you play with a bow and arrow! Archery Tag is also known as Battle X, Bow Hunt or Arrow Tag. With your own bow and some arrows (with soft tips), you enter the field and begin the battle to survive and score as many points as possible. You compete in two teams (from your own group) against each other and are forced to search for new arrows in the field. To protect your face, we use archery tag masks. Action and excitement guaranteed.

# Activities and workshops 2026

## Shooting package Bow & Rifle

Have you always wanted to know how Robin Hood feels? Then this shooting package gives you the chance. We start with a detailed explanation of how to shoot with a handbow and air rifle and, of course, all the relevant safety rules. Then you get to try it yourself, and the instructor will help you perfect the right technique. Of course, it is not entirely without pressure, because the points scored can be kept track of on a scoreboard. That way, after the activity, we will know exactly who gets to take home the Robin Hood honour!

## Paintball

Paintball is an adventurous game full of action and surprises. Teamwork, strategy and enthusiasm are the ingredients for an explosive adventure! Wearing overalls and equipped with face protection and a paintball gun, you try to hit your opponent with paintballs. The paintballs are starch / gelatine-based, biodegradable and washable. Did you know that lighting makes it possible to play paintball in the evening too?
* Individual tubes of paintballs can be purchased separately.

## Team activities

The perfect activity for discovering each other's strengths! The team activities are a combination of different tasks that bring you closer together, both literally and figuratively. It is important that you work together, otherwise it will be impossible to complete the assignment successfully! Team assignments consist of three team-building games. Are the assignments going very well? Then we will expand the assignments. If you need more time for a game, it is also possible that fewer games are played.

# Activities and workshops 2026

## Activities with instructions, without guidance

### Clog golf

Clog golf is an accessible sport for the whole family. Our estate has a beautiful course where you can walk through fields and woods. Relaxing together in nature and playing golf is, in a nutshell, what clog golf is all about. Clog golf is similar to mini golf, but in nature, with a larger ball and a stick with a clog attached to it.

### Disc golf

Disc golf is also known as frisbee golf. Just like the more familiar mini golf, you have to try to reach the target in as few throws as possible. In disc golf, however, you do not use a stick and a ball, but a frisbee, or disc. Take into account wind, obstacles, distance and throwing technique to reach the basket.

### GPS tours

Using a GPS system, groups go on a scavenger hunt. Once you reach the correct coordinates, you will find clues that will help you answer questions and complete theoretical assignments. We have several routes available, namely 4 km and 7 km long. There is also a 4 km route that is wheelchair accessible. You can choose which route you want to take, and we will coordinate the number of groups with you.

### XXL games

The XXL games will make you feel small again... very small! These well-known table games are now suddenly very large! Divide yourselves into several teams and play all the games. Scoreboards are also available, so organising a small competition is easy. The games are accessible to all ages, and even if you are less mobile, you can easily skip a game or coach the group. The games include: Jenga, Twister, Mikado, Tower of Pisa, dominoes and minefield.

# Activities and workshops 2026

### Adventure mini golf

Mini golf: a timeless activity and a fun way to entertain different groups! Do you have an hour to spare, or are you looking for an accessible activity to add to your day programme? Then choose Adventure mini golf. We will provide you with the clubs, balls and scorecards, so you can decide for yourself whether to make it a competition or just enjoy a leisurely round. Adventure mini golf at Landgoed de Biestheuvel is based on the legend of Gnome King Kyrië, a gnome who used to help the inhabitants of the Kempen region with all kinds of tasks at night. The gnome king and his gnomes have mysteriously disappeared, but if you look carefully, you might still see them. This activity is also enjoyable in combination with a walk along the Gnome King Kyrië Path in Hoogeloon, or a visit to the statue of Gnome King Kyrië on Valensplein in Hoogeloon. We are happy to provide you with more information about this.

### Old Dutch games

The name says it all, really... The Old Dutch games are typical Dutch games from the past, or “vruuger”, as they say in Brabant. The Old Dutch games consist of eight table games that are accessible for young and old. These include the cheese game, return shuffleboard and a wooden pinball machine for four people.

## Arrangementen

### Mount Meru

Afraid of heights? Hopefully not! Just like in the Himalayas, we test your skills at different heights in a diverse programme.
The Mount Meru package consists of: Barrel bridge over water,
Low Ropes course, Wall climbing and Crate stacking. Whether you are organising an outing with colleagues, friends or family, this activity is suitable for all kinds of groups. No need to worry about fear of heights, because you decide how high you go.

# Activities and workshops 2026

### Shooter

Are you looking for a spectacular way to celebrate your stag party, company outing or family day? Compete against each other in this adventurous package full of action. The Shooter package consists of: Bow and arrow shooting, Catapult shooting and Paintball. As the name suggests, all activities are focused on shooting, and there is a break in between to rest.

### Farmers fun

Which team has the best farmers? In this package, we test your farming skills! The group will be divided into teams, so challenge your colleagues, friends or family to this fun and hilarious rural outing! The farmers fun package consists of: Clog golf, Hay fork darts, Potato popping (air rifle shooting at potatoes), Cow milk relay & wheelbarrow race.

## Workshops

### Workshop dancing (various styles available)

A dancing workshop is timeless and always enjoyable. There are various styles available, so you can make it as challenging as you like. Consider, for example, the style of Saturday Night Fever, where you learn the dance steps that make this film so unique. Another example is the swinging Bachata, which is similar to salsa, but you could also opt for line dancing or a quick step. If you have a theme in mind, we will be happy to help you find the right dance to match it.

### Workshop painting

Are you looking for a lasting memory? Then come and paint!
This is pure relaxation and ideal for clearing your head. No experience is necessary, as the painting is explained step by step. Great for companies, families or stag / hen parties, with the aim of having fun together and creating something. You will be painting on a 40 x 50 cm canvas and the theme can be chosen in consultation. There are various themes available, such as plus-size ladies, all kinds of animals and couples.

# Activities and workshops 2026

## Sheep herding workshop

If you are looking for the perfect teambuilding workshop for a company outing, then sheep herding is for you. During this workshop, under professional guidance, you will roll up your sleeves and get to work in an unusual way. You will be given a demonstration of sheep herding with a Border Collie, but during the workshop you will be able to experience for yourself what it is like to herd a flock together. Teamwork is central to this woolly workshop.

## Ukulele Workshop

Uke-what? Surely you know them? Those little guitars with that high-pitched sound that instantly makes you want to go on holiday to Hawaii. These little instruments have ‘only’ four strings and simple chords. The workshop leader will explain the different parts of the ukulele, how to position your fingers and how to keep a beat. Everyone gets to choose a ukulele and you’ll practise together. At the end, the group will play some well-known songs.

## Brewing Adventure

Beer tasting can be done in many locations, beer brewing in far fewer places, and beer brewing over an open fire in only one location in the Netherlands. At Brewing Adventure, you can learn all the secrets of brewing a delicious special beer during a 5.5-hour workshop. Although, delicious? That remains to be seen and is entirely up to you as a participant.

## Cooking Adventure

During this four-hour Cooking Adventure workshop, you will prepare surprising dishes using a traditional Dutch oven (open fire with a cast iron pan). After a brief introduction, you will work in teams in the outdoor kitchens on a recipe. Of course, you can also enjoy a delicious drink (limited selection included)! As a group, you will prepare various dishes, which will be served at different times. Weather permitting, this workshop will take place outdoors, otherwise the teepee tents and Finnish kota will create a cosy atmosphere.

# Activities and workshops 2026

## Transportation

### Covered wagon with tractor

Do you have a reservation at our estate and would you like a fun, accessible outing, or do you need transportation from a location to us? Then the covered wagon might be the solution. The covered wagon with tractor can be used flexibly for a pleasant tour of the beautiful surroundings or for a pre-planned destination. The wagon is wheelchair accessible and can accommodate up to 35 adults or up to 45 people with children.

### American school bus

Looking for an original mode of transport and have you made a reservation at our estate? Then book this large yellow American school bus. Just like the covered wagon, it can be used for transport to and from a known destination, or simply for a fun ride in the beautiful Kempen region. The bus is also wheelchair accessible and can accommodate up to 36 people.
Please note: Unfortunately, we are no longer allowed to enter the center of Eindhoven. We will drop you off approximately 1.5 km from the center.
